ಶ್ರೀ ವೀರೇಂದ್ರ ಪಾಟೀಲ್.—ಕಾರ್ಯಕ್ರಮ ತೆಗೆದುಕೊಳ್ಳುತ್ತೇವೆ ಅದಕ್ಕೆ ಮುಂಚೆ ಬಹುಶಃ ತಾಲ್ಲೂಕು ಬೋರ್ಡ್ ಅಧ್ಯಕ್ಷರು ಸಂಬಂಧಪಟ್ಟ ಎಂ. ಎಲ್. ಎ.ಗಳಿಗೂ ಕರ್ನಲ್ಸ್ ಮಾಡಿ ಪ್ರೋಗ್ರಾಂ ಹಾಕಿದ್ದಾರೆ. ಯಾವ ಹೋಬಳಿ ಬಿಟ್ಟಿದ್ದಾರೆ ಯಾವುದು ತೆಗೆದುಕೊಂಡಿದ್ದಾರೆ ಎಂದು ಈಗ ಹೇಳಲಿಕ್ಕೆ ಸಾಧ್ಯವಿಲ್ಲ.

Mr. SPEAKER.—Since Question No. 606 is included in the list. I will allow it to be put; but no supplementaries need be put because we are discussing the motion *re*: sharing of Krishna-Godavari Waters.

Latest position regarding the distribution of Krishna-Godavari Waters between Mysore, Maharashtra and Andhra Pradesh.

*Q.—606. Sri S. SHIVAPPA (Sravanabelagola).

Will the Government be pleased to state:—

(*a*) the latest position regarding the distribution of the Krishna-Godavari waters between Mysore, Maharashtra and Andhra Pradesh;

(*b*) what are the projects the Government of Mysore has taken up for construction in the Krishna basin;

(*c*) What is the percentage of river water of Krishna which is expected to be utilised by these projects;

(*d*) what is the legitimate share of the Mysore State from the river water of Krishna?

*A.—Sri S. NIJALINGAPPA (Chief Minister).—

(*a*) On receipt of Krishna-Godavari Commission's Report in September 1962, Government of India held discussions with various State Governments. A copy of their decision announced in the news dated 23rd March 1963 is appended (*Vide* statement I.)

(*b*) *Vide* statement II given below.

(*c*) 16 per cent.

(*d*) 47½ per cent according to Mysore Government.

STATEMENT I.

P. T. I. news splash of the announcement made by Mr. Hafiz Mohamed Ibrahim in the Lok Sabha regarding Krishna and Godavari River Waters.

Mr. Hafiz Mohamed Ibrahim, Union Minister of Irrigation and Power, announced in the Lok Sabha to-day that pending collection of

comprehensive river flow data in respect of Godavari and Krishna, projects already started or contemplated in the immediate future should go forward to protect the reasonable interests of all the States concerned.

The Minister was making a statement embodying Government's decisions on the Gulhati Commission Report on Krishna-Godavari water resources. A copy of the report was also laid on the table of the House.

Mr. Hafiz Mohamed Ibrahim said that any final Statewise allocation of waters of these two rivers should at this stage be based only on incomplete data and assumptions and as such would be quite unrealistic. Therefore, after a careful consideration of the Commission's recommendations and discussions with the States concerned an organisation was being set up for collection of comprehensive river data over a number of years and its analysis continuously.

Mr. Hafiz Mohamed Ibrahim also announced that a Central Authority under the River Board Act of 1956 would be established to carry out in consultation and collaboration with the States concerned (a) scientific observations of the discharges at key sites as recommended by the Gulhati Commission, (b) investigations of the Godavari diversions and (c) preparation of a master plan for the Krishna-Godavari basin. A project report would be prepared on the supply that could be diverted from the Godavari into the Krishna basin. Action in this respect has been initiated by the Central Water and Power Commission, the Minister said. Pending the collection of comprehensive river flow data and the preparation of the Project Report on divisions of the Godavari to the Krishna basin, he said, development in the river basin should not be held up. The projects already started and those contemplated in the immediate future should go forward with necessary safe margin and stimulation to protect the reasonable interests of all the States concerned. The State Governments should tune their future policy regarding irrigation and administration and management of irrigation works to the requirements of the optimum use of scarce natural reesources.

The proposed comprehensive master plans for the entire Krishna and Godavari basins, which should be prepared by the Central authority to be set up, should have dovetailed into them the State Plans comprising existing projects, projects under construction and those contemplated in the immediate future. In the light of these principles, Mr. Hafiz Mohamed Ibrahim said, a number of projects in the various States would be cleared subject of course to such technical examination and scrutiny as were normally carried out by the C. W. P. C. and the Planning Commission, before approval of the Government of India was conveyed. In the matter of availability of supplies, he said, from several considerations, a criterion based on 75 per cent dependability had been considered to be the most suitable for the purposes of the projects that have to go forward. This criterion of dependability may be adopted.

Sri S. SIVAPPA.—I want to know from the Chief Minister what is the water allotted to the Mysore State according to the latest information ? Has it come to the notice of the Government that any final state-wise allocation of waters at this stage can be based on an incomplete assumption and as such would be unrealistic ?

†Sri S. NIJALINGAPPA.—That statement is there. He has read out of it.

Sri S. SIVAPPA.—Any quota allotted by the Central Minister at this stage is un-realistic according to this statement. With this end in view, will the Government prepare the necessary data ?

Mr. SPEAKER.—Sri Sivappa is taking away the effect of the debate.

Sri S. SIVAPPA.—.....and urge for the 47 per cent of the quota which is due to the State ?

Sri S. NIJALINGAPPA.—They are already thinking of it.

ಶ್ರೀ ಸಿ. ಜೆ. ಮುಕ್ಕಣ್ಣಪ್ಪ.—ನಾನು ನಪ್ಲಿಪೆಂಟರಿ ಕೇಳುವುದಿಲ್ಲ ಈ ಚರ್ಚೆಯ ಬಗ್ಗೆ ಉತ್ತರ ಹೇಳುತ್ತೀರಾ ?
